Education

Chalmers Technical University

Software Engineering

2020 – 2025

Computer science program focusing on software development and system design, with a master's in Interaction Design.

Other Experiences

Student Committee Engagement

Engaged in multiple committees and societies throughout my time at Chalmers, taking on numerous roles including President of the pub arranging committee, Vice President of student educational committee, and other positions. Voluntary work has given me great experience in teamwork and leadership.

Ballroom Dancing Career

Training and competing on an international level. Part of the Swedish National Team 2019, representing Sweden in the World and European Championships. Setting goals, dedication, and communication.

Work Experience

Royal Caribbean Group – Software Intern

(Miami, FL) Jun 2025 – Present (Jun 2025)

1 year software engineer internship. Primarily developing and managing a suite of mission critical apps for shipboard and shore-side users to the marine operations of the fleet. Additionally contributing with data engineering and product ownership tasks. .NET React stack.

Karlsson-Söderberg Konsult – IT Manager

Jan 2024 – Jun 2025

Part-time, developing and maintaining company website, email accounts, and other digital platforms.
